w: 200 - 230 mm

12,500 doc/h

plenty of options

Toner Sealing

easy maintenance

low TCO

# FLEXIPLUS

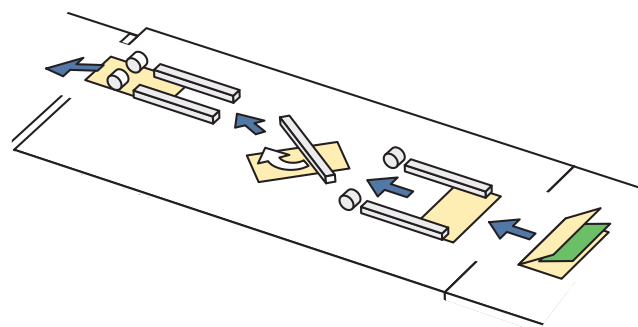

# Mailings ready to send

## Easy and efficient

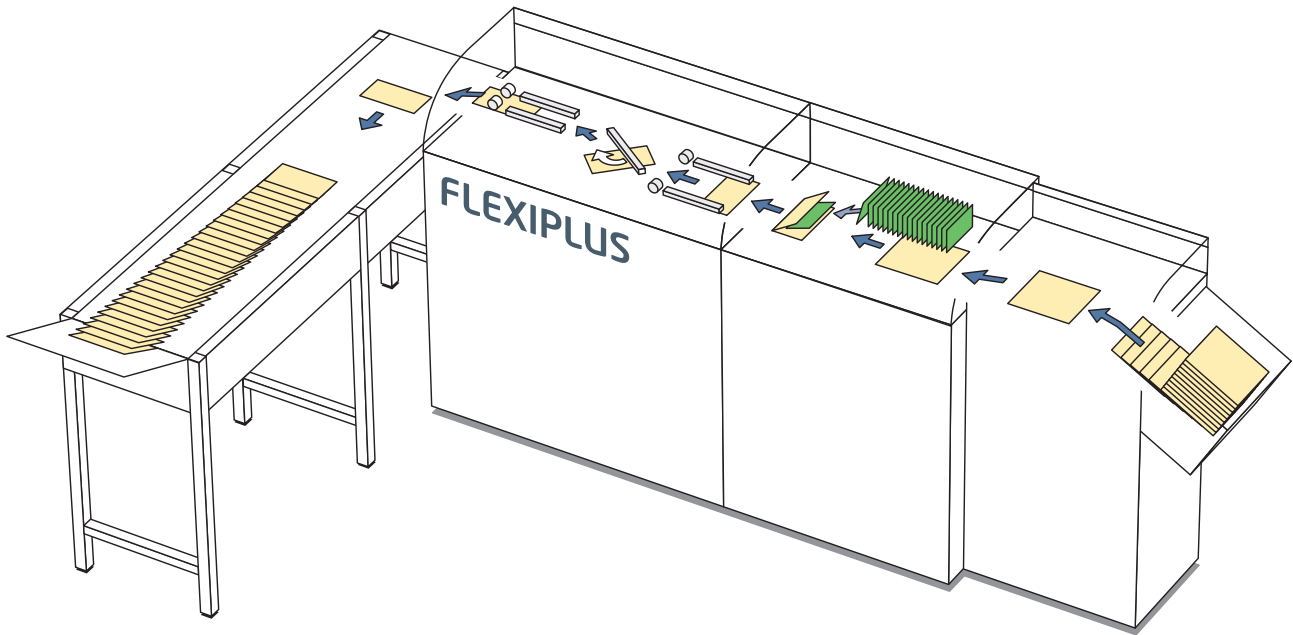

The Flexi Plus Sealer is the ideal system for preparing printed documents for mailing without inserting. The high-capacity Self-Mailer folds and seals paper by a clever process making envelopes and glue unnecessary: Whether chemically coated, glue- or toner-based papers – the document is heated and safely sealed under pressure. A clean, reliable and economical solution and, thanks to the simple modular layout, with the added value of low service and maintenance costs.

At up to 12,500 documents per hour Flexi Plus Sealer delivers high production capacity. The unique closing technology seals the document with heat and pressure and is perfectly suitable for sensitive data such as PIN-Codes, bank statements, insurance information or also direct mailings. The Flexi Plus Sealer makes selfmailing easy and efficient additionally offering a wide range of possibilities.

- › Bigger sheet-feeder for up to 1,500 sheets optional
- › The modular system can be configured for continuous forms at any time
- › Four folding pockets permit single-, letter-, z- or double-fold
- › Feeder for an enclosure in A6 format optional upon request
- › Seals different type of paper with heat and pressure – even expired glue-coated documents after long storage
- › Toner sealing requires no special paper. Toner-frames are printed together with the text in one step
- › Easily comprehensible operation reduces training requirements
- › Easy accessibility as well as simple and cost-effective maintenance even without service specialists
- › Low TCO (Total Cost of Ownership) thanks to attractive purchase prices and low maintenance requirements

# Technical Data

## Max. performance

without enclosure	up to 12,500 doc/h	with enclosure	up to 6,250 doc/h
-------------------	--------------------	----------------	-------------------

## Standard paper formats

Height	11" - 14"	Width	200 mm - 230 mm
Paper weight	90 g - 120 g	Other formats and paper weights on request	

## Standard features

Infeed and upright unit	4 folding unit
4 cassettes with upper heaters	4 pressure wheels
4 perforation knives	Microprocessor controlled
Stacking table	Turning unit

## Options

Cut-sheet feeder up to 1,500 sheets	Enclosure station (A6)
Special cassette for asymmetrical folding	Unistacker (1,880 mm + 1,100 mm extension module)
